

Your event is a goldmine of content

Eventshoot.nl delivers a rich package of photo and video content that keeps your marketer set for months, with the key content, such as photography and aftermovies, delivered within 48 hours. With our packages you have months' worth of content for LinkedIn and/or your own website or channel. We're at your congress, summit, member day, or company event with a sharp eye for what's happening and the initiative to seek out speakers and moments, not to wait for them.

People capture people.

Eventshoot.nl does not use AI-generated video or stock footage. Everything you receive is genuinely recorded at your event, with real people and professional equipment. For post-production, such as selection, transcription, and subtitling, we increasingly use AI.

More than a camera

- ▶ *Coordinating in advance with the venue and technical team, such as backdrop, video wall, stage lighting, and a suitable interview location. Slides with a dark background instead of the other way around, better for the image and much calmer for participants.*
- ▶ *On-the-fly coordination on the day, with speakers, participants, technicians, and the organization. Being polite and striking the right tone gets a lot done, even last-minute.*
- ▶ *A background in graphic design, composition, color, and typography are built into everything you receive. We always work within your house style, not ours. No coincidence, just a difference.*

What you get

- ▶ *A complete content box with photos, aftermovies, and interviews, all ready to publish.*
- ▶ *In the right formats: horizontal for website, 4:5 for LinkedIn and/or vertical.*
- ▶ *Files your marketer can use immediately, no additional post-production, no adding subtitles, no more formatting.*
- ▶ *Months of visibility from a single production day, your event keeps working after the room is empty.*

For whom

Eventshoot.nl works best when your organization has someone who also rolls out the content, such as a marketer, communications employee, or social media manager. We produce, they publish. Our ideal clients:

- ▶ *Industry associations with an annual congress, member day, or trade day.*
- ▶ *Event agencies and DMCs looking for a permanent content partner for their client events.*
- ▶ *Hotels with conference facilities that build preferred-vendor relationships with their guests.*
- ▶ *Marketing and communications agencies that prefer to outsource production to a specialist.*
- ▶ *Companies with their own annual knowledge events or user conferences.*

Event package rates

Three packages plus one annual contract for clients who have multiple events recorded per year.
